

Expanding into our Evolutionary Potential

Online through True North Wellness (see link below)

We are all on an evolutionary path taking us into an expanded experience of love, connection, and knowing. Higher vibrations of Light are being channeled to the Earth and humanity to support our opening to our own greater Light. As we take each step in stretching our capacity to love, sensing our connection to the greater whole, and softening into greater knowing, our Light grows and more and more nourishing energies flow to us. As we take each step we Light the way for others.

This is a monthly series with channels Kathryn Girard and Karen Ferris and their guides Kuan Yin, Lady Portia, Makel, St. Germain, Melchizedek. Sessions include talks by the guides, meditations, and Q&As.
